Interactive Office Project

Jan Lippert, Luca Vitrini, Michael Morasch, Péter Ivanics

Contents

1   Introduction

This report is a summary for the Interactive Office project carried out in the Designing Interactive Systems course at the Department of Computer Science at University of Helsinki during the Spring term of 2017. The report introduces the project ideas, scope, presents its timeline, findings and results.

To make the report easier to read and understand, the chapters to follow are in chronological order similarly to the flow of the project.

1.1   Needfinding

1.2   Research methods

2   Discussion

2.1   Resources

2.2   Proposition

2.3   Results and evaluation

3   Conclusions and future plans
